- Studying languages (Japanese, Icelandic)
- Amigurumi/crochet
- Video- and board games
- Hiking

PROFILE

I have a strong desire to learn, and my goal is to find an exciting company where I can grow as a developer and stay for years to come.

EMPLOYMENT HISTORY

Jr Frontend developer, Glasspaper Solutions AS   Oslo
Sep 2020 — Apr 2024

After the trial period at Glasspaper Solutions, I led website design and development projects for various company entities. I collaborated closely with clients for design concepts before executing them independently (excluding more complex parts such as rest-apis and vuex). My role evolved into exclusive frontend development over several years.

These are a handful of the projects I worked on over the years:

- CMS system [name withheld]
- glasspaper-solutions.no
- Eiendomsverdi
- Inspir-it
- Kamude
- Adaptiva
- Sikkerhetsdistributøren

My role in these projects was primarily frontend development, but I was also tasked with UI/UX on some of them. During these projects, I used a bunch of different tools and technologies, of which some of them are:

- Git
- Vue.js/Nuxt.js
- TML/CSS (SASS)
- Javascript/Typescript
- Storybook
- Figma
- Vuex
- Adobe CC (Illustrator, Photoshop, Adobe Dimension)
- Scrum/Agile
- Azure DevOps

EDUCATION

Higher Professional Degree, Noroff   Oslo
Aug 2018 — Jun 2020

A vocational school specializing in frontend development with a strong emphasis on UX/UI design and graphic illustration.

Some of the skills acquired at this institution:
- React
- Redux
- Javascript
- HTML5/CSS3
- Interaction design
- Adobe CC
